

Description

The program allows to print the Transport Emergency Cards necessary for the road shipment of the dangerous goods.

It can be interfaced to the basic module Epy+.SDS with the automatic transport classification module Epy+.TRAS, from which it receives the information for the tremcards to print.

Or it can work independently as well. In this case it's possible to select one or more UN nr. and filling in the name of the transported material the tremcard can be printed in the desired languages. The program manages 1400 UN nr. and 70 types of tremcards.

It is possible to request transport sheets for a single product or a group of products.

Epy+.TREM01 (5 languages)

Tremcards in 5 languages: English, Italian, German, French, Spanish.

Epy+.TREM02 (22 languages)

Tremcards in 22 languages : 5 languages + Bulgarian, Czech, Croatian, Danish, Dutch, Finnish, Greek, Polish, Portuguese, Romanian, Russian, Serbian, Slovak, Slovene, Swedish, Turkish and Hungarian.

Epy+.TREM03 (29 languages)

Tremcards in 29 languages : 22 languages + Albanian, Estonian, Latvian, Lithuanian, Macedonian, Norwegian and Ukrainian.
